

GOV. HASKELL INDICTED BY FEDERAL GRAND JURY

Muskogee, Ok., Feb. 3.—Several indictments were returned by the Federal grand jury here tonight in the town lot alleged fraud investigation, the charge being conspiracy to defraud the government.

The names of those indicted are Governor Charles N. Haskell, J. B. Zeveloff, A. Z. English, C. W. Turner, W. T. Huthins, James W. Hill and Walter R. Eaton.

Attorney Thomas H. Owen, of Muskogee, representing Governor Haskell made arrangements for the Governor Friday morning to enter his appearance and give bond in the sum of \$5,000 for appearance for trial.

The writs issued are returnable forthwith.

Gov. Haskell is at Guthrie, Ok. State Capital. There is but one indictment against him, charging him with conspiring with Walter R. Eaton and Clarence W. Turner to defraud the government.

PHILLIPS OUT ON BOND

Judge Leslie today allowed William Phillips to give a twenty-five hundred dollar bond for his appearance at the next term of the Circuit court.

Phillips is charged with being responsible for the death of Will Granger, whom he cut over two months ago in a difficulty near Cottonwood.

The case of Y. M. C. Baxter charged with being one of the night riders who shot up the old negro Eli Hughes home some weeks ago was bound over in a \$750 bond.

Mrs. Judge B. S. Laddon of Miami, Fla., is visiting in the city.

THE ANNUAL BIBLE INSTITUTE FOR DEPENDENT OF SOUTH EAST ALABAMA

To Be Held at Newton, Alabama Beginning Monday March 8, at 7 p. m.—Closing Friday March 12, Noon

Leading Lecturer
The Rev. A. I. Robertson, of the First A. M. E. Church, of South East Alabama, will deliver the institute twice each day on great Bible themes.

Other Speakers
A partial list of other speakers includes B. D. Gray, Atlanta; M. T. Frost, Nashville; A. P. Montague, Birmingham; W. B. Crumpton, Montgomery; J. A. French, Eufaula; S. H. Campbell, Troy.

Conferences
Every afternoon will be given a conference of pastors and church workers.

Entertainment
Will be provided free of charge by the good people of the town. Write Rev. R. M. Hunter, Newton, Ala., and let him know that you will attend.

INSTITUTE COMMITTEE
A. G. Mosley, Chairman
J. H. Harris, Vice

TEACHERS' INSTITUTE

The Houston County Teachers' Institute will meet in Columbus on Friday and Saturday, February 19th and 20th. We will publish the program of the Institute in next week.

COMMANDERY MEETING

Knight Temple will meet in the city on Friday evening, February 5th, at 8 p. m. All Sons of the Knights are urged to attend.
W. T. Hall, Recorder

MEETING OF THE NEW CENTURY CLUB

The meeting of the New Century Club, organized and planned by the club, was well sustained by the club membership.

The meeting of the Club at the home of Mrs. Wallace Hunter, on Saturday afternoon was thoroughly interesting and instructive. In a literary standpoint the evening with Mrs. Hunter will be remembered.

The exposition of English Government and Political Methods by Mrs. John H. Howers was highly and ably presented. Mrs. Howers possesses the happy faculty of presenting her ideas in a homely and forcible manner.

The character sketch of Queen Victoria by Mrs. Griffith was a faithful picture of the life of the Queen.

The paper by Mrs. Hunter concerning the Home of the Royal Family was most thorough and satisfactory to her subject. She held the earnest attention of the club as she told in beautiful language the historical and sentimental affairs of the House of Royal.

The discussions pertaining to the House of Royal proved that we are familiar with the rights over there and we have not actually been "abroad."

Great old London is a never-ending captivating sight and in a scribbled city which reveals its almost omnipresent and omnipotent hand as for three centuries the world's center for the intellectual and material forces that have so largely built up our civilization.

John Howers Feb. 16th promises to be an interesting and profitable time. Educational England will be the subject of consideration.

Refreshments were served.
Reported by Mrs. J. B. Dill

HOW DREAMS COME TRUE

You have your dream. No doubt you would like to live in a castle and wear fine clothes and be a lady or gentleman of great significance. There is only one way to achieve this. Help the world to make some of its many other dreams which are not so very different from your own come true, and it will help you to realize yours. Every dream you know has work behind it for some one. If you want a castle, you can build it. If you want a dress, some one has to make it. Therefore your way is to work for some one else in the best way you can, and in turn some one else will work for you. You will be paid. And out of your pay if your work is good, all the things which you desire, the dreams which you want to come true, will come true.

Mind you, the world rarely gives us exactly what we want. And also we rarely want what we thought we wanted, after we have it. Nevertheless the dreams of the world, such as they are, your dreams and mine, are really achievable, and the regular shops and factories and trades and professions which are all about us show us the way. Work is the answer—give the world what it wants by working to give many factories, distributing. Get in on that showing what you can do as a maker of dreams come true, and the world will quickly respond and your own will become a reality.—Dehuester

WALTHOUR BEATS ENGLISH MAN

Atlanta, Feb. 3.—Bobby Walthour last night won two out of three heats of a 10-mile motor-paced race with Albert Walls of England in the St. Nicholas velodrome in Atlanta before a crowd of four thousand. The marks the reopening of the bicycle racing in Atlanta and the next track will be the scene of some fast racing during the next few months.

Charles Truville, who paced Walls and Gussie Lawson, Walthour's pace rider, a mile for the world championship at motor cycle, Lawson winning, Feb. 28.

Walls won first heat five and of the 15-mile bicycle race, his time being 9:15. Walthour lost his place in the third mile and was unable to regain it. Walls won 12 yards.

Walthour won the second heat 10 yards and 10 yards, 10 yards, 10 yards, 10 yards.

Walthour won the third heat five miles by a lap and a quarter time 8:22.25.

A TRUST CAN'T COLLECT DEBTS THROUGH COURTS

Washington, D. C., Feb. 2.—The case of the Continental Wallpaper Company against Louis Voght and Son, of Cincinnati, was today decided by the Supreme Court of the United States in Voght's favor. The case was brought by the company on a debt of \$37,000, the payment of which was resisted on the ground that the paper company is a trust. In effect the decision holds that an admitted trust organized contrary to the Sherman anti-trust law cannot use the court to collect debts.

TO OUR CUSTOMERS AND THE INSURING PUBLIC

We take this method of notifying you that we are suspended by the various Companies heretofore represented by us to discontinue writing fire insurance. This action is taken on account of the ordinance recently enacted by the City Council placing a tax on the Companies which they consider prohibitory.

We therefore can with remedy or write new policies for you if these Ordinances remain in force. Be assured that this matter is entirely beyond our control and that we are in no way responsible for this action.

No criticism of either the City Council or the Companies is intended by this notice. We consider it our duty to advise you of the facts so that you may arrange your insurance as best you can.

Very respectfully

Telephone No. 119

Entered at the postoffice at Dothan, Alabama, as second class mail matter

Daily, for one year \$5.00
(Every afternoon except Sunday)
Weekly one year \$1.00
(Published every Saturday)

Thursday February 1 1909

This has been the coldest weather on the pork killed this week

Few Presidents have gone out of office under fire as hot as the present incumbent

The school children of Dothan are very much interested in their work this year and the present term ought to be a good one

We suppose Mr Bryan could make as much money on the lecture platform, or off as Mr Roosevelt could, even though he has never been President

It has been some time now since we read a treatise on farming by an editor, and we are about ready to believe they have left off giving advice about what to plant and where

It is a hard matter, even in Tennessee to find competent men to serve on the jury, to find men who never read of the murders and who have no opinion one way or another

Mr Taft is very anxious to have the Crum matter settled before the 4th of next month. The people of Charleston are more anxious about it than he, for they are getting sore on the question

The chief weather man has been promised a raise in salary from \$5,000 to \$6,000 a year, and we don't mind allowing him to draw the raise under a guarantee that he will give us no worse weather than he has for some time

"The town has never been in a better mood to see work commence on that Government building. It does take a long time to get the wheels of the Government going round, and when this is accomplished it takes a while to get them stopped

The earloads of young mules are not being shipped to Dothan as formerly. The people are not demanding fat fresh sheared unbroke mules but are willing to take some that have been worked a while, with harness scars. Mules are too high in the market for the price of cotton

The shooting up of Brownsville and the negro Crum, Collector of the port of Charleston are two small affairs in themselves. We both have caused more talk than perhaps any two other questions before the American people for the past three years. The average reader will rejoice when the last of them are heard of the last shall ever come

SCRATCH PAD REFLECTIONS

A man sometimes seems so polished that he can see his own finish

Of course all boys expect to be president of the United States but after they get to be men they would be surprised to reach the goal

Some men are so smooth that they could work things in politics with the wireless system

When a man tells you that he is trusting to luck, nine times out of ten you can put it down that he is opposed to work.

Disappointments as well as blessings have a way of appearing in disguise

The really truthful man seldom boasts about it but people think he belongs to the self exploiting class of nature

An optimist is a man who can keep all his eyes shut, contented with the good luck of the fruit crop

The cold, dry and strong wind is making the day a very uncomfortable one for the people of Dothan

When a girl tells her mother that she is in love with a boy, she is usually telling the truth

Some people have a habit of letting the time slip away from them

Some girls who work other boys have them in a way to look

A remedy for a man is usually one who knows when to let his cat out

When a man tells all the truth about the election and election he is usually telling the truth

A man who is a good worker is the most of the world and the world is a good worker

A good many people would be as well off if they could wish about three fourths of their expectations at one half of their value

Did you ever notice how some women with full manners will talk to others with full manners? Which is the worst?

The man who is not contented with his lot should save up and buy another with trees and things on it

Some people's manners appear to have warts on them

A professional bluffer is apt to get old feet early in the game

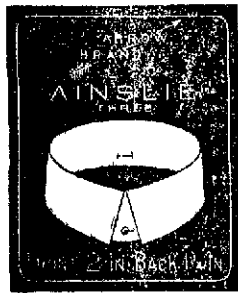

The average college man needs to learn that what he knows won't hurt him very much if he will keep it in the back of his mind

The upper crust of society is frequently roasted

A woman's first wrinkle is not to make her face to take a more serious view of life

Some people wouldn't be happy if they owned the earth unless they could put it with "keep off signs"

Easy money often develops hard morals R G H

Most "2 for a quarter" collars are 3 ply. They can be only three fourths as good as

"ARROW" COLLARS, which are 4 Ply. They are Clapco shank making same size after as before. Made in U.S.A.

TAFT WILL BE MADE A MASON AT SIGHT

Cincinnati, O., Feb. 2.—The grand master of the Ohio Masons, Charles S. Hoskinson of Zanesville, has tendered to William Howard Taft the rare and high honor of being made a Mason at sight.

Judge Taft has accepted and will return to Cincinnati on Thursday, Feb. 18, when the grand master will convene a distinguished company of Masons in the Scotch Rite Cathedral and exercise the high prerogative, which belongs only to a grand master of Masons.

This honor is so rarely conferred that there is but a single instance of it on record in the hundred years of the history of Masonry.

in Ohio, when in 1892 the Hon. Asa A. Bushnell of Springfield was made a Mason on sight.

In addition to prominent Ohio Masons, invitations will be sent to the grand masters of all the other states in the union to participate in the convocation.

THE PASSING OF WHITE BREAD.

If a ruling by Secretary of Agriculture Wilson is obeyed, white bread in the United States will soon be abolished.

By the ruling of the Secretary of Agriculture, in the enforcement of the pure food law passed by Congress, beginning on February 1st, millers all over the country must stop bleaching flour. But the bleached flour still in stock may lawfully be disposed of until June 9.

There will be as much difference between bread made from unbleached flour and the present bleached flour bread as there is between angel cake and sponge cake. The flour will be of creamy color instead of clear white, and the bread will be light golden in color. But there will be no difference in flavor.

A dispatch from Minneapolis Minn. says: Millers think they have the laugh on Chemist Wiley of the Agricultural Department who is responsible for the ruling against bleaching materials. They have figured it out that sodium nitrate, the chemical most commonly used is little harmful and is used in such small quantities that the consumption of 10,000 loaves baked from the bleached flour would not kill a man—that is, the sodium nitrate wouldn't.

Figuring further, they say that if one began to eat bread on the day he was born, at the rate of half a loaf a day, and if he could retain in his system all the sodium nitrate, he would be 55 years of age by the time he had consumed his harmful share of nitrate.

But Chemist Wiley gets back the laugh with the admission that themselves very harmful, but that the bleaching materials are not in the object of the ruling is to make the flour look natural—Albany Herald.

THE JAPANESE MUST GO.

It is apparent that the feeling against the Japanese on the Pacific coast is of the kind that will not tolerate an increase in the number of them in that section. Considering the efforts of the President to check legislation by the California Legislature calculated to bring about strained relations between this country and Japan, it looks as if the Legislature of that state would go ahead and pass these objectionable bills. And the Californians are being urged on in the course they have marked out by the people of Nevada. The Legislature of that state having passed a resolution criticizing the President for his interference with the efforts of California to settle their affairs by themselves. We say their affairs, because they regard their efforts to restrict the privileges of Japanese in their state as their own affair, but as a matter of fact it is not the whole country interested in it since the proposed legislation might bring on a war with Japan.

It is certainly not as much their own question as the race question in the South is the South's affair, and yet other sections of the country have been trying for forty years to settle the South's race question in accordance with their views.

It is impossible, of course, to foresee what the outcome of this California-Japanese question is going to be, but at present it seems to be pretty certain that California intends to settle it in accordance with her own views of it.
